The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. The investment manager has contractually agreed to waive a portion of its fees through the period ending January 28, 2011. If such fee waivers were not in effect, returns would be reduced. For performance data current to the most recent month end, please call 1.800.445.1341, or visit our website at www.cnicharter-cema.com.

Total returns presented for periods less than 1 year are cumulative, returns for periods greater than 1 year are annualized.

§ The performance presented for Class N Shares links the performance of an older class of shares from inception on 10/31/88 to 10/22/04 with the performance of this class of shares after its inception on 10/22/04. The actual annualized since inception return is 3.52%.

* The credit quality breakdown depicts the credit quality ratings of the Fund's portfolio securities that are rated by one or both of two major nationally recognized statistical rating organizations ("NRSRO"). The two NRSROs currently utilized are Standard & Poor's (S&P) and Moody's. When a bond is rated by S&P that rating is utilized. If it is not rated by S&P, the Moody's rating is utilized. When a security is rated by neither, it is classified as "Not Rated". For bonds, these credit quality ratings are shown without regard to gradations within a given rating category. For example, securities rated "AA-" or "AA+" have been included in the "AA" rated category.

Total return assumes reinvestment of dividends. Fund holdings are subject to change.

LIMITED MATURITY FIXED INCOME FUND

Class N Shares Mutual Fund Report

Investment Objective

The Fund seeks to provide a high level of current income consistent with preservation of capital and liquidity.

Investment Strategy

Construct a portfolio of high quality securities across the major fixed income sectors that provide excellent income opportunities and capital preservation. The dollar-weighted average maturity of the Fund is normally less than 3 years and will never exceed 5 years.

The Fund acts in the traditional role of fixed income, one of capital preservation and income, not capital appreciation.
