The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1.888.889.0799, or visit our website at www.cnicharterfunds.com.

Investment performance may reflect voluntary fee waivers in effect. In the absence of such fee waivers, total return and yield would be reduced. Fee waivers may be discontinued at any time.

MULTI-ASSET FUND

Class N Shares Mutual Fund Report

About the Fund

The Multi-Asset Fund seeks to generate a positive total return in excess of inflation in a manner consistent with capital preservation in all market environments.

We invest in a diversified portfolio, including but not limited to direct investments in many diversified asset classes and investments in mutual funds and exchange-traded funds (“underlying funds”).

The Fund is a “fund of funds,” which is a term used to describe mutual funds that pursue their investment objectives by investing all or substantial portions of their assets in other mutual funds or other types of funds.

The cost of investing in the Fund will generally be higher than the cost of investing in a mutual fund that invests solely in individual stocks and bonds. By investing in the Fund, an investor will indirectly bear fees and expenses charged by the underlying funds in addition to the Fund’s direct fees and expenses. In addition, the use of a fund of funds structure could affect the timing, amount and character of distributions to the Fund’s shareholders and may therefore increase the amount of taxes payable by shareholders. The underlying funds in which the Fund may invest include other funds in the CNI Charter Funds family as well as funds unaffiliated with CNI Charter Funds.
